To whom it may concern:

It is with great pleasure that I recommend Bamaco Inc.

Bamaco Inc was our hurricane debris removal contractor for hurricanes Charlie, Frances, and Jeanne in 2004 for four counties in the central Florida, Orlando area.

Bamaco Inc very competently handled nearly five million dollars in debris removal for the Department.

Prosecution, control, and on-site supervision of the work were outstanding, the equipment was effective, and cooperation with Department personnel was excellent. Bamaco mobilized quickly, provided massive resources, responded to any special requests we had immediately, and cleaned up their work site quickly. They interfaced with the traveling public and property owners in a professional manner.

Bamaco Inc would be an asset to any debris removal effort, and I am happy to give them my wholehearted endorsement.

Sincerely
