Henderson County Engineer

Re: Henderson County Kentucky ice storm cleanup.

Robert M. Mitchell,

Mr. Mitchell, on behalf of the Henderson County Road Department staff, employees and myself, I would like to express our gratitude in working with your company. Though we had many obstacles to overcome in our efforts to clean up our County, we were able to overcome the problems we encountered and complete this endeavor. This was achieved primarily through the efforts of your key employees that were located here in Henderson County, in particular, Ms. Michelle Mitchell. Ms. Mitchell was tasked with working with multiple government agencies throughout the clean-up. Her ability to work with FEMA, Kentucky Transportation Cabinet, Henderson County and the city of Henderson critical to the clean-up efforts. She worked in a professional and cooperative manner with all agencies including my supervisors and the Henderson County Road Department. She was instrumental in facilitating the clean-up of Henderson County. I hope you will extend this thanks to Ms. Mitchell. If you have any questions you may contact me at (270) 826-8843.

Sincerely,

William A. Hubiak, P.E.  
Henderson County Engineer
