Henderson County Engineer

Re: Henderson County Kentucky ice storm cleanup.

Robert M. Mitchell,

Mr. Mitchell, on behalf of the Henderson County Road Department staff, employees and myself, I would like to express our gratitude in working with your company. Though we had many obstacles to overcome in our efforts to clean up our County, we were able to overcome the problems we encountered and complete this endeavor. This was achieved primarily through the efforts of your key employees that were located here in Henderson County, in particular, Mr. Rick Headrick. Mr. Headrick was tasked with working with multiple government agencies throughout the clean-up. His leadership along with logistical knowledge was crucial to the clean-up efforts. He worked in a professional and cooperative manner with my supervisors and the Henderson County Road Department. Without Mr. Headrick's capabilities we would not have finished the clean-up nor would we have had the quality of clean-up in our County. I hope you will extend this thanks to Mr. Headricks. If you have any questions you may contact me at (270) 826-8843.

Sincerely,

William A. Hubiak, P.E.
Henderson County Engineer
